A summary of the status of the Main Street Project was provided. With the DOT grant that will be approved in June there would be benefit to getting funding through SRF instead of the DOT. SRF would, however, require that the city withdraw from the USDA application first. Until the DOT funding has been officially approved though it would be in the best interest of the city to request that USDA keep all previous application and review in queue because without the additional DOT funding the city would have to go through USDA. Council was in agreement that a memo to withdraw the USDA application with a request to see if the project could remain in queue although not active should the city need to revert back to USDA.

With business concluded, Halvorson moved to adjourn the meeting. Seconded by Scott. Ayes – All. Meeting adjourned.
